

Policy For the First Masternode

How to Participate the First Masternode Group

Member of Group=Master node+General node

SCHEDULE

Process of Electing Masternode Group

1) After forming the masternode group, send group information

- Please form a masternode group freely through the community and messenger and make a decision after discussing the profit rate of masternode.
 - ※ Number of Group : 1~50 persons including 1 masternode
 - ※ Profit rate of MN: Total KISC reward distributed will be firstly to the masternode and secondly to the whole group members. At this point, the amount of being distributed to masternode will be decided by the profit rate(ex:10%) which the masternode has suggested(all the group members agreed) when forming a group, the residual amount will be allocated to each member according to the individual scores of the group members.
- After collecting the information, send email(mano@bizblocks.io)to Kaiser head office.(the sender: 1 group delegate, word/excel file will be better.)

Contents	Group	(1) PayBanC ID of MN (email form) (2) Profit rate of MN agreed (ex: 10%)
	Each member	(1) Wallet address, (2) KISC quantity of participating, (3) Name, (4) Contact, (5) Email address

2) Get points during the evaluation period

- Evaluation period, points which each member has acquired through activity(KISC holding and promotion) will be calculated as the score of group.
 - ※ KISC quantity locked-up will be excluded from the target to acquire KISC holding points.

3) Elect 101 final masternode group

- 101 MN groups will be selected in the order that the total scores are high.
 - ※ If there are less than 101 participating groups, the reward will be paid for them, If the total number of KISC is less than 100,000, it will be excluded from the election

Process of reward for mining

- Time of Reward: Total reward will be distributed daily during mining reward period
- Reward Allocation procedure:
 - 10% of the total reward will be given to top 10 groups at the last date of rewarding period, 90% of reward would be distributed daily not one time
 - KISC distributed daily will be given according to the group score.
 - KISC group received will be distributed to masternode first.
 - Remaining amount will be again distributed to all the group members as many as the individual's scores.

※Possible to do web-monitoring of KISC reward (1/31~)

Target		Distribution Standard	Total Reward	
Rewarding Order	Daily reward to the elected 101 groups		90%	
	1	▪ Elected 101 groups		According to the scores of group
	2	▪ Masternode		According to the profit of masternode
	3	▪ Group Member(Masternode+General Node)	According to the individual score	
Out of elected groups, Total scores TOP 10		Reward as of the evaluation closing date	10%	

Appendix 1. Election Evaluation Standard

1. KISC coin holding amount

Evaluation Date: Due Date for Group Evaluation (January 28th)

Evaluation Target: Group Account KISC amount

Point Conversion	KISC amount	Points	Example
	Each Kisc	1 point	1,000Kisc = 1,000Points

2. Kaiser Brand Promotion Contribution

Evaluation Date: Masternode Group working period (24th ~28th, 5 days)

Evaluation Standard Table

Group	Channel	Activity	Standard *	Promotion Result		Score		
			Whether Achieve	Content	Quantity			
A Group	Reddit	Write Article	○	None		25		
	Domestic Basis*					15		
	BitcoinTalk	Reply				10		
	Facebook	Follow/Like/Share				10		
	Twitter	Follow/Like/Retweet				10		
B Group	Steemit, Medium	Write Article	○	Recommendation	10~30	50		
					30~50	100		
					50~	150		
	Youtube	Post Video			○	Hits	50~100	150
							100~300	200
	300~	250						
C Group	Naver Blog	Write Article	○	Friends			50~300	50
							300~1,000	250
					1,000~	500		

A Group : Provide points only meeting the standard, B/C Group: Provide points based on satisfaction the standards and outcomes of the promotion

Details

※ You can find details on Kaiser Bounty Program

Classification		Contents
Mandatory	Application	<ul style="list-style-type: none"> Attach essential keyword and link Capture telegram greeting post
	Verification	<ul style="list-style-type: none"> Link article posted Writer is himself/herself
Optional	Language	<ul style="list-style-type: none"> Only English post : Reddit, Medium channel
	Related Board	<ul style="list-style-type: none"> Only community related 'Coin/Investments/Cryptocurrency' can be recognized In case of Reddit, specified 9 boards
	Comment	<ul style="list-style-type: none"> In case of Twitter/Facebook, Can be recognize when all 3 (Like, Retweet/Share, Follow) the account) goes on

Appendix 2. Reward Evaluation Standard

1. Evaluation 101 Elected Group

KISC coin holding amount

Evaluation Date : Daily during rewarding period(Jan. 30th~ not fixed)

Evaluation Standard: Group Account KISC amount

Point Conversion	KISC amount	Scores	Example
	1Kisc	1Point	1,000Kisc = 1,000Points

Number of Recommender

Evaluation Date : Daily during rewarding period(Jan. 30th~ not fixed)

Evaluation Standard: Sum-up group member

Point Conversion	Number of my ID recommended	Score	Example
	Each time	20points (not fixed)	30 times = 600 points

2. Evaluation each group member

KISC coin amount invested to the individual group

Evaluation Date : Daily during rewarding period(Jan. 30th~ not fixed)

Evaluation Standard: KISC amount the individual has invested to the group account

Point Conversion	KISC amount	Score	Example
	Each Kisc	1 point	1,000Kisc = 1,000points

Number of Recommender

Evaluation Date : Daily during rewarding period(Jan. 30th~ not fixed)

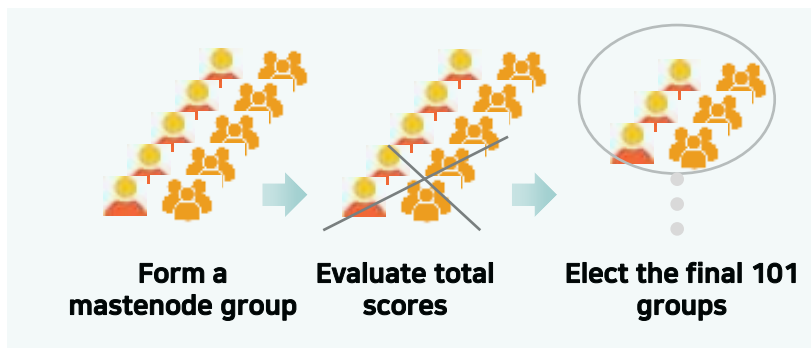

Evaluation Standard : Number of being recommended to himself/herself

Point Conversion	Number of my ID recommended	Score	Example
	Each time	20points (not fixed)	30times = 600 points

Kaiser Masternode Group

Election of masternode group and Reward for mining

Group election procedure

Rate of KISC distribution

Procedure of daily reward

Daily distribute

1. Give differentially to upper 10 group

2. Targeting 101 group, distribute according to the group scores

1) Distribute first to masternode according to the ratio of profit of masternode

2) Distribute again to the members including masternode according to the remaining KISC individual score
